Students at our Community School usually attend a pre-school (Kindergarten)<sup>i</sup>, mainstream school<sup>ii</sup> or are home schooled where they learn the proper formation of letters, reading and writing in the English language. The School for the German Language Inc. builds on this prior knowledge and focuses on teaching German language and culture.

The multilevel classes provide the opportunity to group the children according to their abilities (native speakers, background speakers, new learners), age and social competences. The teachers use the German language in class and incorporate games, craft activities and songs in their lessons to motivate the young students.
